In addition to these two bands, you've got other good shit happening there like and, and probably countless more that I don't even know about.. Faith No MoreIf you truly love music, you can not pass up such a great site as our catalog.

DISFYXIA have only one a Demo called 'El Reino del Terror' (Kingdom of Terror) and they talks about we don't exist on this capitalist society.. Warmouth only has a 2-song demo available at the moment, but it is a mandatory listen and download.. Make it free, not bothering to fill various questionnaires and registration And also tell your friends about us! I heard a beautiful song and can't find her on the Internet?Go to our catalogue, which contains thousands of popular and lesser-known compositions.

The choice is extensive, the search does not take much time, the sound quality is excellent.. The song text is absent GENRE: Crustpunk, D-Beat, Hardcorepunk FFO: Nausea, Extreme Noise Terror, Discharge, Anti-Cimex D/L: Well this are a chilean band with female fronted, they sounds are amazing, some blastbeat and more raw d-beat style's.

Super heavy, pissed off hardcore with riffs all over the fucking place And don't worry, they have a split album with Cloudburst that should be coming out fairly soon which is now officially my most anticipated release of the year.

Here you can download or listen online songs of various artists The content is free, open a collection and run the search - it is quick and easy! The Internet has made the life of music lovers, especially those who are rocking the music from our website.. It presents all music genres And if you want to download Midlife Crisis (From Angel Dust) mp3, you can easily find the desired song in our library.. I think this band has revitalized the local scene crustpunk (Chilean), even considering that the vocalization is really well made and the intensity of his compositions are brutal.. He released the first full length from White Spot titled Terms of Venerly. As one of my friends put it, ' Indonesians are pissed dude', he may be onto something.. Another VERY impressive solo project Who needs bandmembers?Here's a description of the band from Facebook because I'm lazy: White Spot is a Noise Rock/Experimental Metal project formed by Marcus Lemoine.
