With macOS Catalina's Sidecar feature, you'll be able to use your iPad as an extended secondary display of your Mac, or you can simply choose to mirror your Mac's computer screen on the iPad for greater functionality.. Though macOS Catalina brings many small upgrades over its predecessor, macOS Mojave, let's take a look at one of the most interesting features it has to offer.. The key advantage of the Sidecar feature is that it allows you to use the iPad's touchscreen on Apple's latest fully functional desktop operating system.. While the company has already released the beta version of macOS Catalina, the final version is expected to be available this fall. [Paul Anka Papa Midi Files](#)
